

Decorative Magnetic Hardware

Creative
Hardware, Inc.

Installs in Seconds!

The days of time consuming installation of decorative hardware are now a thing of the past!

Decorative Magnetic Handles & Hinges are manufactured from durable ABS plastic. We use ultra-strong neodymium magnets to secure the hardware to steel doors.

Unlike stamped steel, ABS plastic will not rust, chip, or bleed. Avoid the headaches of costly drilling errors! No tools required, just place the decorative handles and hinges on the door.

Handles & Hinges

**NO
Drilling**

NO Drilling Needed

- Easy installation
- Avoid Costly Drilling Errors

**NO
Flaking**

Noncorrosive

- NO Flaking
- Rust Resistant
- Color Fading & Weather Tested

**NO
Streaking**

NO Streaking

- NO Paint Bleed
- Resistance to Discoloration

Silicone capped magnets for superior holding strength and surface protection

Handle:

2" Wide
12" Long
1-1/2" High
ABS Plastic
Neodymium "Rare Earth" magnets
(Retains 99% of Strength over 10 years)

Hinge:

2" Wide
16" Long
3/8" High
ABS Plastic
Neodymium "Rare Earth" magnets
(Retains 99% of Strength over 10 years)

Maple Creek

Handle:

2" Wide
11" Long
1-3/4" High
ABS Plastic
Hammered finish
Neodymium "Rare Earth" magnets
(Retains 99% of Strength over 10 years)

Hinge:

2.375" Wide
18" Long
3/8" High
ABS Plastic
Hammered finish
Neodymium "Rare Earth" magnets
(Retains 99% of Strength over 10 years)

Clavos:

1-3/4" Diameter
1/2" High
ABS Plastic
Hammered finish
Neodymium "Rare Earth" magnets
(Retains 99% of Strength over 10 years)

Adhesive Discs:

For use on vinyl overlay or fiberglass
Remove silicone cap when attaching
Adhesive Discs for superior strength
and for a secure install
(Adhesive Discs sold separately)

1 Year Full-Replacement Warranty is available in the event of manufacturing defects, color fade or premature weathering
