Amarr Commercial Experts
(ACE Team)

866-366-4814 Voice
 877-692-7059 Fax
ace@amarr.com

The ACE Team was conceived to provide DC and dealer support for custom sectional, specialty products, and the new commercial programs emerging at Amarr. The Door Centers are set up to handle the typical products and technical needs of most Amarr commercial customers. However, there are some sectional and new product applications that may require additional assistance or expertise. The ACE Team should be utilized in the following instances:

- Custom commercial applications where the BOM is not readily available or set up in the system.
- Rolling Steel program assistance when the Door Center needs "as built" drawings or assistance beyond a basic quote.
- Specialty product assistance.
- Commercial Technical questions and assistance
- Commercial CDO customer set up and assistance.
 - To qualify for factory direct, an order must be over \$5,000. Sectional bid jobs under \$5,000 will be serviced through the Door Center.
 - Rolling Steel must have at least \$15,000 on an order to ship direct to the dealer or jobsite.
